KANZAKI
SPECIALTY PAPERS

Date: Monday November 2nd, 2026

To Our Valued Partners,

Unfortunately, inflationary pressure continues across all input sectors. We continue to mitigate as much of this as possible. Sadly, relentless escalation of logistics, energy, raw materials, and operational costs now require the implementation of an additional surcharge.

Effective for all product shipments on **December 2nd, 2026**, an additional surcharge of 3% will be applied to invoices on all shipped orders.

As always, we appreciate your understanding, partnership, and business as we navigate these challenging conditions together. Our team is available to help you plan for upcoming orders and answer any questions.

Sincerely,

President & CEO | James P. Russell
